

## CLAIMS

I claim:

1. A topical cream comprising:  
a water mixture;  
calendula infused olive oil;  
cassia oil;  
geranium oil; and  
wax.
2. The topical cream of claim 1, wherein the water mixture comprises rosewater and glycerin.
3. The topical cream of claim 1, further comprising grapeseed oil.
4. The topical cream of claim 1, further comprising frankincense oil.
5. The topical cream of claim 1, further comprising myrrh oil.
6. The topical cream of claim 1, wherein the wax comprises beeswax.
7. The topical cream of claim 1, further comprising aloe vera gel.
8. The topical cream of claim 1, further comprising vitamin E.
9. The topical cream of claim 1, further comprising co-enzyme Q10.
10. The topical cream of claim 1, further comprising a violet fragrance.

11. A topical cream comprising:  
at least 32% by volume water mixture;  
approximately 14% by volume calendula infused olive oil;  
approximately 0.90% by volume cassia oil;  
approximately 0.76% by volume geranium oil; and  
a range of approximately 2% to 10% by volume wax.
12. The topical cream of claim 11, wherein the water mixture is approximately 31% by volume rosewater and approximately 1% by volume glycerin.
13. The topical cream of claim 11, further comprising approximately 33% by volume grapeseed oil.
14. The topical cream of claim 11, further comprising approximately 0.14% by volume frankincense oil.
15. The topical cream of claim 11, further comprising approximately 0.19% by volume myrrh oil.
16. The topical cream of claim 11, further comprising approximately 14% by volume aloe vera gel.
17. The topical cream of claim 11, further comprising approximately 1% or less by volume violet fragrance.
18. The topical cream of claim 11, further comprising approximately 33% by volume olive oil.

19. A method of making a topical cream comprising:  
providing a water mixture containing at least rosewater and glycerin;  
mixing calendula infused olive oil, cassia oil and geranium oil to produce an oil mixture;  
heating the oil mixture to produce a hot oil mixture;  
adding grated wax to the hot oil mixture to produce a hot wax mixture;  
cooling the hot wax mixture to produce a cool wax mixture; and  
blending the cool wax mixture with the water mixture.
20. The method of claim 19, further comprising:  
mixing at least one of frankincense oil and myrrh oil with the calendula infused olive oil, the cassia oil and the geranium oil to produce the oil mixture.
21. The method of claim 19, further comprising:  
heating virgin olive oil;  
adding calendula flower petals to the heating virgin olive oil to produce an oil and flower mixture;  
heating the oil and flower mixture to extract calendula oil from the calendula flower petals; and  
removing the calendula flower petals from the oil and flower mixture after the calendula oil has been extracted to produce the calendula infused olive oil.
22. The method of claim 21, further comprising:  
pressing the removed calendula flower petals to extract additional oil; and  
mixing the additional oil with the oil and flower mixture to produce the calendula infused olive oil.
